COMPANY PROFILE

About PDV Octavision Ghana Ltd

PDV Octavision Ghana Ltd is a dedicated low voltage, security and automation services provider based in Ashaley Botwe, Accra. We design, supply and install reliable CCTV, gate automation, fire & burglar alarm, and smart home & office solutions for residential, commercial and industrial clients across Ghana and West Africa.

OUR MISSION

To deliver dependable, certified low-voltage and automation systems that protect people, property and businesses across Ghana with world-class engineering and local service.

OUR VISION

To be Ghana's most trusted partner for integrated security, fire safety and smart automation - setting the benchmark for quality, reliability and after-sales support.

OUR EDGE

Why Choose Us

- Locally based in Ashaley Botwe, Accra - fast on-site response anywhere in Ghana.
- Certified technicians, branded equipment and structured cabling best practices.
- End-to-end service: site survey, design, supply, installation, training and AMC.
- Coverage for residential, commercial, industrial, hospitality and government clients.
- Transparent pricing, clear documentation and post-installation warranty support.

Meet Our Head Incharge

Mr. Sharma Santoshkumar Papatlal

Head Incharge — PDV Octvision Ghana Ltd

Experience
25 Years

Sex
Male

Marital Status
Married

I am **Sharma Santoshkumar Papatlal** — Head Incharge of PDV Octvision Ghana Ltd. Over the past 25 years I have personally led and handled numerous projects across CCTV surveillance, low voltage systems, fire & security automation, and integrated property protection — for refineries, power plants, banks, corporate industries and private properties across India, the Philippines and Ghana.

A few of the projects we have delivered are featured below.

Selected Projects

PROJECT 01

Reliance Industries Ltd — Jamnagar Refinery

Jamnagar, India

Project named "Jamnagar Security Management System - 2.0 (JSMS 2.0)" — installation of integrated low voltage systems across the Reliance Industries Ltd refinery complex, including CCTV surveillance, access control, perimeter security, and centralized monitoring infrastructure for one of the world's largest refining facilities.

PROJECT 02

Service & Technical Manager — Corporate Industrial Projects

Pan-India

Served as Service and Technical Manager for major corporate industries including Petrochem LNG, GACL, GSPC, Adani Solar (Mando Solar PV Ltd), BPCL, HPCL, IOCL, and across thermal & hydro power generation sectors such as NTPC, NHPC, NTECL, Adani Power, AP Genco, TS Genco, and Sembcorp (GGPL Nellore) — delivering Design, Installation, Testing, and Commissioning of low voltage and security systems.

PROJECT 03

3x55 MW Balingasag Thermal Power Plant — Minergy Power Corporation

Balingasag, Cagayan De Oro City, Philippines

Successfully completed an overseas IPA project for the 3x55 MW Balingasag Thermal Power Plant of Minergy Power Corporation in Balingasag, Cagayan De Oro City, Philippines — executed in collaboration with Mitsubishi and TPSC (Tohhiba) for the erection, installation, testing, and commissioning of low voltage and electrical systems.

PROJECT 04

Regional Manager — Gujarat State Banking Security

Gujarat, India

Served as Regional Manager for Gujarat State, handling installation and maintenance of CCTV systems, Fire Alarms Systems, Burglar Alarm Systems, Access Control, and ATM DVRs across branches and ATM premises of Bank of India, State Bank of India, Dena Bank, South Indian Bank, and Union Bank in rural and urban areas of Gujarat. Responsibilities included managing service engineers, surveying new branches, submitting offers, collecting AMC reports, and reporting sales and service performance to the head office.

WHAT WE OFFER

Overview

We design and install professional CCTV surveillance systems using HD, 4K and IP cameras with intelligent analytics, secure remote viewing and reliable on-site recording. From single-camera homes to multi-site enterprise deployments, our installations are engineered for clear footage, long-term reliability and easy day-to-day operation.

KEY FEATURES

- HD, 4K & IP cameras (dome, bullet, PTZ)
- Network video recorders (NVR) and cloud backup
- Night vision, motion detection & AI analytics
- Mobile app live view and playback
- Structured cabling and lightning protection
- Remote support and annual maintenance contracts

IDEAL FOR

- Homes, apartments and gated estates
- Shops, supermarkets and showrooms
- Offices, banks and corporate buildings
- Warehouses, factories and yards
- Schools, hotels and hospitals
- Government and public infrastructure

WHAT WE OFFER

Overview

Automate your sliding, swing or drive-in gates with reliable motors, safety sensors and remote-controlled access. Our gate automation systems combine convenience, security and long service life - with options for keypad, card, smartphone and intercom control to suit homes, estates and commercial premises across Ghana.

KEY FEATURES

- Sliding, swing and drive-in gate motors
- Remote, keypad, RFID and smartphone control
- Safety photocells and obstacle detection
- Battery backup for power outages
- Video door phones and intercom integration
- Heavy-duty motors for commercial gates

IDEAL FOR

- Private residences and villas
- Gated communities and estates
- Commercial compounds and offices
- Warehouses and industrial yards
- Schools, churches and clinics
- Hotels and hospitality properties

WHAT WE OFFER

Overview

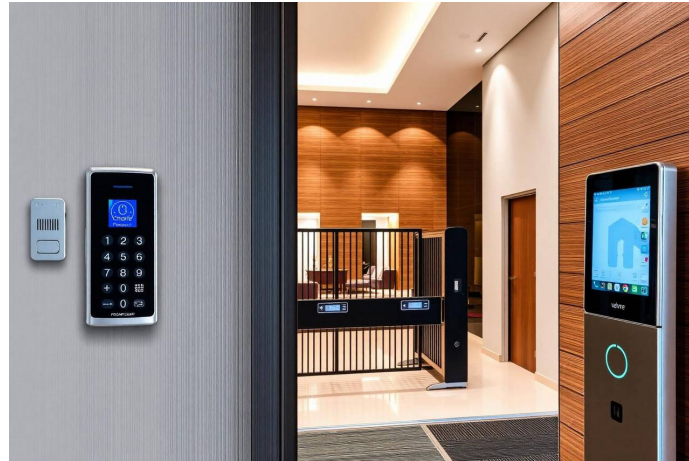

Protect lives, property and business continuity with conventional and addressable fire alarm systems and modern intruder alarms. We supply, install, commission and maintain detection, notification and monitoring systems engineered to international fire safety standards and tailored to Ghana's building codes and risk profiles.

KEY FEATURES

- Conventional and addressable fire alarm panels
- Smoke, heat and multi-criteria detectors
- Manual call points, sounders and strobes
- Intruder alarms with motion & door sensors
- 24/7 monitoring and SMS / app alerts
- Periodic testing, servicing and certification

IDEAL FOR

- Offices, banks and commercial buildings
- Warehouses, factories and workshops
- Hotels, restaurants and event venues
- Schools, hospitals and clinics
- Residential homes and apartments
- Petrol stations and high-risk facilities

WHAT WE OFFER

Overview

Transform your home or workplace with intelligent lighting, climate control, audio-video, access and energy-management systems - all controlled from a single app or voice. We integrate leading smart-home platforms with your security and automation infrastructure for one seamless, easy-to-use experience.

KEY FEATURES

- Smart lighting, switches and dimmers
- Climate, curtain and shade automation
- Home theatre, multi-room audio & video
- Voice control (Alexa / Google Assistant)
- Smart locks and biometric access
- Energy monitoring and scene automation

IDEAL FOR

- Modern villas and luxury homes
- Apartments and serviced residences
- Executive offices and boardrooms
- Conference rooms and training centres
- Hotels, lounges and restaurants
- Showrooms and retail experiences
